

Horizontal Tank Tool

Photo Measure

Close

Diameter (in)

e.g. 200

Length (in)

e.g. 1500

Set

Take picture of Diameter or Length of tank. Use fingers to enlarge image → Draw small line to mark off 12 inch measurement → Mark second line to measure full length of Diameter or Length of tank. Measurements will be derived from the number of pixels estimated for initial measurement vs full diameter and length lines.

Diameter

Length

Measurements from Diameter & Length are populated from image lines onto Cryo Calculator page. Manual Entry is allowed.
